

SOFTImpact and Lemur Maritime sign partnership to deliver Cybersecurity solutions to the Greek shipping sector.

LIMASSOL, Cyprus – July 17, 2017 SOFTImpact LTD a leading Maritime IT solutions specialist has today signed a strategic partnership agreement with Lemur Maritime based in Piraeus, Greece, to deliver cybersecurity solutions to the Greek shipping sector.

SOFTImpact and Lemur will work together with their customers to address the “Cyber Threats” being faced on a daily basis. Services will include, Risk Assessments, Cyber Defence Planning, Phishing simulation, Penetration testing and Cyber education.

Oil tanker managers and owners will be pleased to hear that the partnership will also help them address the newly introduced element 13 and cybersecurity related KPIs.

Markus Schmitz, Managing Director SOFTImpact stated “ With Greece being a short hop across the water and having the majority of our workforce being Greek speaking, this partnership will allow those companies in Greece struggling to understand and address the cyber threats access to our services already delivered internationally for some time. We look forward to a positive partnership with Lemur”

Kostas Sismanidis, Managing Director Lemur stated “ We believe implementing Maritime Cyber Risk Management through ISPS, ISM and TMSA Element 13 requires strategic partnerships, that have contributed to the final text of the recently issued guidelines by BIMCO. SoftImpact is adding value to our Cyber Risk Approach and we are now able to offer a holistic effective and efficient solution to our Greek Customers.
